

TOWNSHIP OF EDWARDSBURGH CARDINAL ACTION ITEM

Committee: Committee of the Whole-Administration and Operations

Date: February 13, 2023

Department: Environmental Services

Topic: 2022 Summary Water Reports- CWS and EDS.

Purpose: To provide the Summary reports for the Cardinal and Industrial Park Water Systems.

Background: Owners of municipal drinking water systems are required to ensure that, not later than March 31st of each year, a Water System Summary Report is prepared in accordance with subsection (2) and (3) of Schedule 22-2 of Ontario Regulation 170/03 for the preceding calendar year.

For Drinking Water systems owned by a Municipality, the report is to be provided by the Operating Authority and presented to the Municipal Council. The report must list the requirements of the Act, the Regulations, the Drinking Water Works Permit, Municipal Drinking Water License and any Provincial Orders that were not satisfied at any point during the period of the report. Where Provincial standards were not maintained, the report must specify the duration of the failure and the measures that were taken to correct the deficiency.

Policy Implications: A requirement under Ontario Regulation 170/03 Safe Drinking Water Act.

Financial Considerations: There are no financial impacts associated with receiving the Annual Summary Reports.

Recommendation: That Committee recommends that Council receive the 2022 Water Summary Reports for the Cardinal and Industrial Park Water Systems.

Eric Wemerman

Chief Water/Sewer Operator
