1.1 Introduction

This Plan has been prepared to provide key officials, agencies and departments within the Township of Edwardsburgh Cardinal with a general guideline to initiate response to an emergency, and an overview of their responsibilities during an emergency.

All concerned should be aware of the Plan's provisions and every official, agency and department should be prepared to carry out their assigned functions and responsibilities.

The Emergency Management and Civil Protection Act, 2009 is the legal authority for this plan and is also included as a specific Township by-law. It states that the Head of Council may declare that an emergency exists in the community, or any part thereof, and may take such action and may make such orders as he/she considers necessary, and are not contrary to law, to implement the emergency plan of the community and to protect property and the health, safety, and welfare of the inhabitants of the emergency area.

Emergencies are defined as *situations or the threat of impending situations that could abnormally affect property, and the health, safety and welfare of the community, which would require a coordinated response by a number of agencies (including those outside the community), under the direction of the Community Control Group*. These responses would be distinct from normal responses from first response agencies.

The four components of emergency management are as follows:

- **Mitigation/Prevention:** Eliminating or reducing the degree of long-term risk to human life and property from natural, technological and human-caused hazards. Preventive measures include relevant legislation, regulations, codes, and hazard reviews.
- **Preparedness:** Developing operational capabilities for an effective response prior to an emergency. Preparedness measures include plans, training, exercises and public education.
- **Response:** Taking immediate action before, during and after an emergency to save lives, minimize damage to property and enhance recovery. Response measures include activating emergency plans and providing staff and additional resources.
- **Recovery:** Restoring critical public safety systems and essential services to minimum operating levels following an emergency. Recovery measures include damage assessment, counseling, debris clearance, infrastructure renewal and decontamination.

Emergencies that might affect Edwardsburgh Cardinal are (and not restricted to) **major fires; dangerous goods fume releases; snow/ice storms; explosions; flooding; public health emergencies; road/rail/shipping crashes; flammable gas leaks; utility outages; building**

Section 1 – Administration

or structural collapse; adverse environmental incidents; forest fires; an agricultural emergency; or a combination of any of the above.

This emergency plan will focus on the components **Preparedness, Response and Recovery.**

1.2 Aim

The Aim of this plan is to protect the health, safety, welfare and property of our citizens from the effects of a natural, technological or human caused emergency.

1.3 Authority

This Plan has been developed and will be implemented in accordance with the Emergency Management and Civil Protection Act, R.S.O. 1990, c. E.9 detailed in **Section 4**, which is the Provincial statute under which all emergency management activities are conducted in the Province of Ontario.

Our Emergency Management By-law is the local authority for this plan and related activities. The By-law is itself **Section 5** of this Emergency Plan.

1.4 Glossary of Terms

Community Emergency Management Coordinator (CEMC) Is the individual responsible for the coordination of all operations within the Emergency Operations Centre.

Emergency is defined as a situation caused by a natural, accidental, or intentional act, or otherwise that constitutes an actual or impending danger to life or property.

Emergency Information Officer (EIO) is the individual responsible for internal and external communications related to the emergency.

Emergency Management Program Committee (EMPC) is a group of people brought together to ensure the risks and hazards of a community are identified and plans are put in place to either mitigate or eliminate said hazards.

Emergency Operations Centre (EOC) is the structure/facility wherein the Control Group conducts its emergency management functions. There is a primary and secondary EOC identified to ensure operational viability.

Evacuation Centre is a facility set up to provide emergency shelter, food, recreation and basic requirements to a group of people who have been evacuated from an area as a result of an emergency.

Information Centre is a facility set up to brief and inform the media.

Municipal Emergency Control Group (MECG) is the group responsible for managing the emergency situation on a community wide basis. The membership, as detailed in the plan, consists of all key decision makers and officials who have the authority to direct or coordinate human and material resources within the community.

Provincial Emergency Operations Centre (PEOC) constantly monitors evolving situations inside and outside of Ontario. This ensures key decision makers and [provincial resources](#) are able to respond to evolving situations as quickly as possible. The key function of the PEOC is to coordinate Ontario Government response to major emergencies. This includes providing municipalities and First Nations with a single point of contact for provincial assistance in times of crisis.

Reception Centre is a facility which is set up for the purpose of receiving evacuees, providing refreshments and temporary shelter. Its primary purpose is to register evacuees and if necessary direct them to an evacuation centre as required.

1.5 Plan Maintenance

The Plan was established in 2004 and it is essential that it be kept current and viable by adherence to a maintenance schedule. It was totally revised and updated in 2009. Responsibility for the plan being kept up to date rests with the Community Emergency Management Coordinator who may delegate tasks accordingly. The plan was reviewed in its entirety on:

- August 17, 2017
- September 16, 2019
- November 25, 2024

The emergency telephone numbers will be reviewed on an annual basis.

The notification system will be tested monthly, advising the members within the notification using the words “This is a test.”

The plan will be exercised once every year as a minimum requirement.

The Municipal Emergency Control Group and Support Staff shall receive training and participate in an exercise once every year as a minimum requirement.

The Support Services Directory should be updated annually.

The Community Emergency Management Coordinator will determine the schedule under which the maintenance activities will be performed.

2.0 Municipal Emergency Control Group (MECG)

The Municipal Emergency Control Group is the group that is responsible for the direction and control of the overall emergency response within the community. The MECG ensures the provision of the essential services necessary to minimize the effects of an emergency on the community.

The MECG is made up of the following members;

CEMC
Mayor
Fire Chief
Director of Operations
Treasurer
Parks, Recreation and Facilities Manager
Emergency Information Officer
CAO

The CEMC may authorize other resources (personnel, departments or external organizations) to be involved during the MECG meetings, training or exercises to serve as subject matter experts, as the situation requires.

Implementation

Any member of the Municipal Emergency Control Group may request, through the CEMC, that the Emergency Plan be implemented.

It is the responsibility of the agency that is first at the scene of an emergency to decide whether the emergency plan should be implemented. If the size or seriousness of the emergency is beyond the capability or responsibility of that agency, then the Emergency Plan will be activated. The Emergency Plan may be implemented in whole, or in part, based on conditions at the site or severity of the situation.

The CEMC will immediately notify the Mayor and other members of the MECG. Notification lists and procedures are located in **Appendix 2**.

2.1 Emergency Operations Centre Procedures (EOC)

The Township has a dedicated Primary EOC Location as well as a Secondary EOC Location prepared for use in case of emergency (**Appendix 1**). During the notification process, direction as to which location members of the MECG will report to will be given. For example, members will be told that this is emergency plan activation and that they should report to the primary EOC immediately. The primary and secondary locations are geographically separated so that if one or the other is endangered or rendered non-functional as a result of the emergency situation the other should be safe and operational.

Upon receiving notification the CEMC will contact the administrative staff who have been assigned the task of setting up the EOC. The EOC will be set up and operational within one hour of activation.

Upon arrival at the EOC, each MECG member/designate will;

- a. Sign In
- b. Check telephone/communications devices.
- c. Open personal log.
- d. Contact their own agency and obtain a status report.
- e. Participate in the initial briefing.
- f. Participate in planning initial response/decision making process.
- g. Pass MECG decisions on to member's agencies/areas of responsibility.
- h. Continue participation in the EOC Operations Cycle.

Upon leaving the EOC, each MECG member will;

- a. Conduct a hand over with the person relieving them.
- b. Sign out on the location board indicating where they can be reached.

Once the initial response is established, routines are put into place by the CEMC. The MECG functions most efficiently on a system known as an Operations Cycle.

2.2 Operations Cycle

An operations cycle is how the MCEG manages overall emergency operations. MCEG members will come together usually around a planning board or map at which time they will in turn report their agencies' status to the Mayor and CEMC. It is essential that every member, covering each area of responsibility, be heard from during this process. The MCEG is a team, and the actions taken by one, or the lack of action by one, may have a significant impact upon operations.

The round table discussion should include problems, questions, resources requests and any other relevant information so that timely informed decisions can be made as a group. Once the meeting is completed, the members should contact their agencies and pass on any relevant information or directives that come out of the MCEG meeting. The frequencies of the meetings are determined by the CEMC in conjunction with the Mayor, but should reflect the pace of the emergency and occur on a scheduled basis which may be adjusted accordingly.

During the period after the meeting and dissemination of information, members will be in the process of gathering information and preparing for the next scheduled meeting. MCEG members use this time to follow up and ensure MCEG decisions are being implemented. Each member is responsible for informing their respective agency of the schedule for MCEG meetings. No calls are to interrupt the proceedings. All calls must occur prior to or after the formal meetings of the MCEG.

It is essential that the EOC is comfortable, has good communications and is secure from unnecessary distractions. Only MCEG members and EOC support staff should have access to the EOC. No media are allowed into the EOC, nor is anyone who has not been authorized by the CEMC.

2.3 Municipal Emergency Control Group Responsibilities and Procedures

The MCEG is responsible for the following:

1. Implementing the Emergency Plan in whole or in part to respond to an impending, potential, or existing emergency.

Law enforcement report

s.14(2)(a) and 14(4) FIPPA / s.8(2)(a) and 8(4) MFIPPA

This subsection exempts from disclosure a report prepared in the course of law enforcement inspections or investigations by an agency responsible for enforcing and regulating compliance with a law. A "report" must consist of a formal statement or account of the results of the collation and consideration of information. Generally speaking, reports would not include mere observations or recordings of fact. "Agency" includes organizations acting on behalf of or as agents for law enforcement agencies.

Compelling Circumstances

s.21(1)(b) FIPPA / s.14(1)(b) MFIPPA

Personal information may be disclosed to someone other than the individual to whom the information relates in compelling circumstances affecting the health or safety of an individual, not necessarily the individual to whom the information relates.

Circumstances are "compelling" when either there is no other way to obtain personal information affecting health or safety, or there is an emergency situation where the delay in obtaining the information would be injurious to someone's health or safety. The determination of when compelling circumstances exist is left to the discretion of the head.

Where personal information is released under this subsection, upon disclosure, notification must be mailed to the last known address of the individual to whom the information relates. If the institution does not have the address, it should attempt to find out the address of the individual from the person who made the request.

7.1 Declaration of Emergency Checklist

(Note: All references in section of the plan refer to the Emergency Management and Civil Protection Act, R.S.O. 1990, Chapter E.9, as amended 2006)

This checklist is for use by municipal heads of council considering the declaration of an emergency within their municipality. This checklist is not intended to provide any sort of legal advice – it is merely a reference tool.

An emergency is defined under the Emergency Management and Civil Protection Act as “a situation, or an impending situation that constitutes a danger of major proportions that could result in serious harm to persons or substantial damage to property and that is caused by the forces of nature, a disease or other health risk, an accident or an act whether intentional or otherwise”.

Under the *Emergency Management and Civil Protection Act*, only the head of council of a municipality (or his or her designate) and the Lieutenant Governor in Council or the Premier have the authority to declare an emergency. The Premier, the head of council, as well as a municipal council, have the authority to terminate an emergency declaration [Sections 4 (1), (2), (4)].

An emergency declaration may extend to all or any part of the geographical area under the jurisdiction of the municipality [Section 4 (1)].

If the decision is made to declare an emergency, the municipality must notify Emergency Management Ontario (on behalf of the Minister of Community Safety and Correctional Services) as soon as possible [Section 4 (3)]. Although a verbal declaration of emergency is permitted, all declarations should ultimately be made in writing to ensure proper documentation is maintained. Written declarations should be made on municipal letterhead, using the template provided by Emergency Management Ontario, and should be faxed to **(416) 314 - 0474**. When declaring an emergency, notify the Provincial Emergency Operations Centre at **1 (866) 314 - 0472** or **(416) 314 -0472**.

When considering whether to declare an emergency, a positive response to one or more of the following criteria **may** indicate that a situation, whether actual or anticipated, warrants the declaration of an emergency:

Section 7 – Declaration of Emergency

General and government:

- Is the situation an extraordinary event requiring extraordinary measures?** [Section 4 (1) permits a head of council to “take such action and make such orders as he or she considers necessary and are not contrary to law” during an emergency.]
- Does the situation pose a danger of major proportions to life or property?** [Section 1, definition of an emergency]
- Does the situation pose a threat to the provision of essential services (e.g., energy, potable water, and sewage treatment/containment, supply of goods or medical care)?** [Some situations may require extraordinary measures be taken or expenditures be made to maintain or restore essential services. A declaration of emergency may allow a head of council to expend funds outside of their spending resolutions and/or the regular approval process of the municipality.]
- Does the situation threaten social order and the ability to govern?** [Whether due to a loss of infrastructure or social unrest (e.g., a riot), a crisis situation has the potential to threaten a council’s ability to govern. In such cases, extraordinary measures may need to be taken. Section 4 (1) provides for extraordinary measures, not contrary to law. Section 55 (1) of the *Police Services Act* provides for the creation of special policing arrangements during an emergency.]
- Is the event attracting significant media and/or public interest?** [Experience demonstrates that the media and public often view the declaration of an emergency as a decisive action toward addressing a crisis. It must be made clear that an “emergency” is a legal declaration and does not indicate that the municipality has lost control. An emergency declaration provides an opportunity to highlight action being taken under your municipal emergency response plan.]
- Has there been a declaration of emergency by another level of government?** [A declaration of emergency on the part of another level of government (e.g., lower-tier, upper-tier, provincial, federal) may indicate that you should declare an emergency within your municipality. For example, in the event of a widespread disaster affecting numerous lower-tier municipalities within a county, the county will likely need to enact its emergency response plan and should strongly consider the declaration of an emergency. In some cases, however, a declaration of emergency by a higher level of government may provide sufficient authorities to the lower-tier communities involved (e.g., municipalities operating under the authority of a provincial or federal declaration).]

Section 7 – Declaration of Emergency

Legal:

- **Might legal action be taken against municipal employees or councillors related to their actions during the current crisis?** [Section 11 (1) states that “no action or other proceeding lies or shall be instituted against a member of council, an employee of a municipality, an employee of a local services board, an employee of a district social services administration board, a minister of the Crown, a Crown employee or any other individual acting pursuant to this Act or an order made under this Act for any act done in good faith in the exercise or performance or the intended exercise or performance of any power or duty under this Act or an order under this Act or for neglect or default in the good faith exercise or performance of such a power or duty.” Section 11 (3), however, states “subsection (1) does not relieve a municipality of liability for the acts or omissions of a member of council or an employee of the municipality....”]

- **Are volunteers assisting?** [The *Workplace Safety and Insurance Act* provides that persons who assist in connection with a declared emergency are considered “workers” under the Act and are eligible for benefits if they become injured or ill as a result of the assistance they are providing. This is in addition to workers already covered by the Act.]

Operational:

- **Does the situation require a response that exceeds, or threatens to exceed the capabilities of the municipality for either resources or deployment of personnel?** [Section 4 (1) permits the head of council to “take such action and make such orders as he or she considers necessary and are not contrary to law to implement the emergency plan.” Section 13 (3) empowers a municipal council to “make an agreement with the council of any other municipality or with any person for the provision of any personnel, service, equipment or material during an emergency.”]

- **Does the situation create sufficient strain on the municipal response capability that areas within the municipality may be impacted by a lack of services, thereby further endangering life and property outside areas directly affected by the current crisis?** [Some situations may require the creation of special response agreements between the municipality and other jurisdictions, private industry, non-government organizations, etc. Section 13 (3) states that the “council of a municipality may make an agreement with the council of any other municipality or

Section 7 – Declaration of Emergency

with any person for the provision of personnel, service, equipment or material during an emergency.”]

□ **Is it a consideration that the municipal response may be of such duration that additional personnel and resources may be required to maintain the continuity of operations?** [In the event of a large-scale crisis, such as an epidemic or prolonged natural disaster, municipal resources may not be able to sustain an increased operational tempo for more than a few days. This is particularly true if emergency workers are injured or become ill as a result of the crisis. In such a case, the municipality may need to utilize outside emergency response personnel. Section 13 (3) provides for mutual assistance agreements between municipalities.]

□ **Does, or might, the situation require provincial support or resources?** [Provincial response (e.g., air quality monitoring, scientific advice, airlift capabilities, material resources, etc.) may involve numerous ministries and personnel. Activation of the municipal emergency response plan, including the opening of the Emergency Operations Centre and meeting of the Emergency Control Group, can greatly facilitate multi-agency and multi-government response.]

□ **Does, or might, the situation require assistance from the federal government (e.g., military equipment)?** [Section 13 (2) authorizes the Solicitor General, with the approval of the Lieutenant Governor in Council, to make agreements with the federal government. In Canada, federal emergency assistance is accessed through, and coordinated by, the province. The declaration of an emergency may assist a

□ **Does the situation involve a structural collapse?** [Structural collapses involving the entrapment of persons may require the deployment of one or more Heavy Urban Search and Rescue (HUSAR) teams. Ontario has a HUSAR team. This team is specially equipped and trained to rescue persons trapped as a result of a structural collapse. Any municipality in the province can request a HUSAR deployment to a declared emergency. Requests for HUSAR resources should be made through your local mutual aid fire coordinator. Approval for the dispatch of the HUSAR team comes from the Commissioner of Emergency Management.]

□ **Is the situation a large-scale or complex chemical, biological, radiological, or nuclear (CBRN) incident?** [Response to CBRN incidents requires specialized resources and training. Ontario has three Level 3 CBRN teams to respond to incidents throughout the province. CBRN teams are only dispatched to declared emergencies. Requests for a CBRN deployment should be made through your local mutual aid fire coordinator. Approval for the dispatch of CBRN teams comes from the Commissioner of Emergency Management.]

Section 7 – Declaration of Emergency

- Does the situation require, or have the potential to require the evacuation and/or shelter of people or animals [livestock] from your municipality?** [Evacuee and reception centres often use volunteers as staff. As noted above, the declaration of an emergency enacts certain parts of the *Workplace Insurance and Safety Act* related to volunteer workers. Secondly, an evacuation or sheltering of citizens has the potential to generate issues pertaining to liability. Section 11 of the *Emergency Management and Civil Protection Act* may provide municipal councillors and employees with certain protections against personal liability.]
- Will your municipality be receiving evacuees from another community?** [The issues discussed in the previous bullet may apply equally to municipalities accepting evacuees.]

Economic and Financial:

- Does the situation pose a large-scale disruption to routine patterns of transportation, or re-routing of large numbers of people and vehicles?** [The rerouting of people and vehicles poses a potential liability risk. Keeping persons from their homes and delaying commercial traffic are both sensitive issues. Section 11 of the Act may provide certain protection from liability. Section 4 (1) allows for extraordinary measures to be taken, providing they are not contrary to law.]
- Is an event likely to have a long term negative impact on a community's economic viability/sustainability, including resulting unemployment, lack of available banking services and restorative measures necessary to re-establish commercial activity?** [The declaration of an emergency may facilitate the ability of the municipality to respond to economic losses.]
- Is it possible that a specific person, corporation, or other party has caused the situation?** [Section 12 states that “where money is expended or cost is incurred by a municipality or the Crown in the implementation of an emergency plan or in connection with an emergency, the municipality or the Crown, as the case may be, has a right of action against any person who caused the emergency for the recovery of such money or cost....”]

10.0 Program Purposes

Municipal Disaster Recovery Assistance is a claims-based program that, when activated by the province, offers financial assistance to qualifying municipalities that have sustained significant extraordinary costs as a result of a natural disaster, such as a tornado or severe flooding.

The program offers assistance for extraordinary operating and capital costs arising from a natural disaster. Eligible operating costs are those incurred to protect public health, safety and access to essential services. Eligible capital costs are those to repair public infrastructure or property to pre-disaster condition. Costs that are covered by insurance or costs that would have been incurred if the disaster had not taken place (such as regular municipal salary costs) are ineligible under the program.

For the purpose of Municipal Disaster Recovery Assistance, a disaster is defined as a sudden, unexpected, extraordinary, natural event that results in eligible municipal costs at least equal to three per cent of a municipality's Own Purpose Taxation levy. In keeping with the principle of shared responsibility for disaster management, the program is based on a sliding-scale, cost-sharing formula between affected municipalities and the province.

Disaster Recovery Assistance for Ontarians (DRAO)

The Ontario government also offers a separate program, Disaster Recovery Assistance for Ontarians, to assist homeowners, residential tenants, small owner-operated businesses, farmers and not-for-profit organizations affected by a natural disaster. The Minister of Municipal Affairs and Housing may activate this program in the event of a natural disaster. Disaster Recovery Assistance for Ontarians is administered by the province and a municipal request is not required to activate the program.

Section 10 – Municipal Disaster Recovery Assistance (MDRA) & Disaster Response Assistance Ontario (DRAO)

How MDRA works

To apply for Municipal Disaster Recovery Assistance, the municipal council adopts a resolution requesting assistance under the program. Within **120 calendar days** from the date of the onset of the disaster, the municipality is required to submit the council resolution requesting assistance along with an initial claim and supporting documentation. By this stage, a municipality should have self-assessed its potential eligibility under the program and collected sufficient supporting documentation to demonstrate that costs meet or exceed three per cent of its Own Purpose Taxation levy.

The strength of a municipality's request for assistance will depend on the completeness of the claim forms and supporting documentation submitted. Municipalities must append supporting documentation to establish that costs are:

- Directly linked to the natural disaster for which the municipality is requesting assistance.
- Incremental to a municipality's standard operating and capital budgets.
- Not covered by the municipality's insurance policy.
- Incurred as a result of a natural disaster and to protect public health and safety; secure public access to essential services; or to repair and restore essential property or infrastructure to pre-disaster condition.
- Reasonable. Claims should represent a fair value of work for money paid. Municipalities should be able to demonstrate that procurement and tendering processes are in compliance with the municipality's by-laws and policies.
