WHEREAS routine eye care is critical in early detection of eye diseases like glaucoma, cataracts, and macular degeneration, and the health of eyes is critical to overall health and quality of life; and

WHEREAS Conditions that may be detected with an annual eye exam include Diabetes mellitus, Glaucoma, Cataract, Retinal disease, Amblyopia (lazy eye), Visual field defects (loss of part of the usual field of vision), Corneal disease, Strabismus (crossed eyes) Recurrent uveitis (an inflammation of the uvea, the middle layer of the eye that consists of the iris, ciliary body and choroid), Optic pathway disease; and

WHEREAS payments from OHIP have only increased 9% over the last 30 years, which has not come close to matching inflation of costs (which include rent, staff, utilities, equipment, taxes and supplies); and

WHEREAS the lack of funding makes it difficult to invest in modern technology, and newer technology means earlier detection of eye disease; and

WHEREAS the Provincial government refusal to formally negotiate with Optometrists for more than 30 years has forced the Optometrists to absorb approximately \$173 million annually in the cost to deliver eye care to Ontarians; and

WHEREAS this job action will jeopardize good eyecare for those who need the care of an optometrist the most and will have the greatest impact on the most vulnerable groups. Children—who's lifetime ability to learn and develop depends on good vision—to the elderly, who are at the greatest risk for vision-threatening ocular diseases.
