

Trans-Northern //  
Trans-Nord

Dear Resident,

**Subject: 2022 Pipeline Maintenance Program**

Trans-Northern operates a refined petroleum products pipeline linking the Montreal, Ottawa, and Toronto regions with the fuel we use every day. We are committed to operating in a safe and environmentally responsible manner to protect the public, the environment and the pipeline. This letter is being delivered to you because our pipeline is in proximity to your property and we would like to advise you of some upcoming maintenance work on the pipeline.

As part of our on-going maintenance program, we plan to perform inspection and maintenance on the pipeline in the area of your residence from **<INSERT start date>** to **<INSERT end date>**.

If you have any questions or concerns about this upcoming activity please contact **Paul Thessereault at 514-497-2320**.

Thank you in advance for your cooperation.

Yours truly,

**Paul Thessereault**
